

MDT Motion Detector/Automatik Switch 55

MDT Motion Detector/Automatic Switch 55, flush mounted

Version				
SCN-BWM55.02	Motion Detector/Automatic Switch 55	To fit 55mm systems/ranges, White matt finish		
SCN-BWM55.G2	Motion Detector/Automatic Switch 55	To fit 55mm systems/ranges, White glossy finish		
SCN-BWM55T.G2	Motion Detector/Automatic Switch TS 55	To fit 55mm systems/ranges, White glossy finish With temperature sensor and 2 sensor keys		

The MDT Motion Detector/Automatic Switch with light sensor captures the smallest movements with its built in pyro detectors and high resolution lens. It is possible to configure 2 separate light channels, one HVA channel and one channel for room monitoring. The brightness of the room is measured by the integrated light sensor and made available as an object.

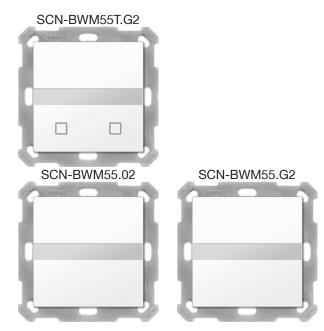

After motion detection and below an adjusted brightness value a 1Bit ("1") telegram, 1Byte dimming value (0...100%) or a scene call ("ON") is send to the bus. The sensitivity is adjustable in 10 steps. If there is no movement a 1Bit ("0") telegram, an 1Byte dimming value (0...100%) or a scene call ("OFF") is send to the bus after an adjustable follow up time.

Different light scenes can be controlled via the day/night object. Additionally there are master/slave, semi/full automatic operation, forced operation/block and logic functions available.

Fits 55mm systems/ranges:

- GIRA Standard 55, E2, E22, Event, Esprit
- BERKER S1, B3, B7
- JUNG A 500, A CREATION, AS 500, A550, A FLOW
- MERTEN 1M, M-Smart, M-Plan, M-Pure

The MDT Motion Detector is a flush mounted device for fixed installations in dry rooms. For project design and commissioning of the Motion Detector it is recommended to use the ETS. Please download the application software at www.mdt.de/downloads.html

- Production in Germany, certified according to ISO 9001
- Fits 55mm systems/ranges:
 - GIRA Standard 55, E2, E22, Event, Esprit
 - BERKER S1, B3, B7
 - JUNG A 500, A CREATION, AS 500, A550, A FLOW
 - MERTEN 1M, M-Smart, M-Plan, M-Pure
- Motion detector with light sensor and 2 sensors
- Two sensor keys for any function
- Temperature sensor for capturing the room temperature
- Motion detection angle H 180° / V 15°, coverage 6-10m Ø
- Suitable for pets up to 12kg
- Sensitivity separately adjustable for day/night/presence
- Detection of moving direction
- 2 light channels, 1 channel for HVAC and alarm
- Short time presence to reduce stopping time
- Master/slave function, scenes and logical functions
- Integrated white LED night light
- Day/night function, orientation light function
- · Block and forced setting functions with release time
- External push button input for automatic and manual operation
- Recommended installation height: 1,05 1,20m
- Integrated bus coupling unit, 3 years warranty
